NEW HARDY HYBRID RUGOSA ROSE

Sir Thomas Lipton

ORIGINATED AND INTRODUCED BY THE CONARD & JONES CO., ROSE GROWERS, WEST GROVE, PA., WHO OWN THE ENTIRE STOCK, AND IT THEREFORE CANNOT BE HAD OF ANY OTHER PARTIES THIS SEASON.

SIR THOMAS LIPTON

Note—This Magnificent New Rose was named by special permission in honor of Sir Thomas Lipton, of London, who came to New York in 1903 with his Yacht Shamrock on purpose to recapture the silver cup won many years ago by American sailors from the English in ocean races held at that time. Several races resulted between the "Shamrock" and the New York Yacht "Reliance" in 1903, which attracted wide attention on both sides of the Atlantic, and though Sir Thomas did not win any of them, his indomitable pluck and perseverance won for him the warm admiration of the American people, and this New Hardy Pure White Rose was named in his honor by the introducers as a slight mark of their appreciation and respect. . . .

WE have had this splendid rose on trial for several years, and now take pleasure in recommending it as the **finest Pure White Hybrid Rugosa Rose yet produced**. It is a strong vigorous grower, making a handsome bush, 4 to 5 feet high, well covered with bright glossy green leaves, which shine as if varnished. The flowers are 3 to 4 inches across, perfectly double and pure snow white. They are very fragrant and borne on strong upright stems all through the growing season. It is one of the **Hardiest Roses in Existence**, and therefore particularly valuable for planting in cold climates and exposed localities where other roses do not thrive. It does well everywhere and can be depended on to make a strong handsome bush and produce plenty of large double pure white roses for several months every season. It is especially recommended for yard, park and cemetery planting, because of its handsome appearance, perfect hardiness and entire freedom from insects, rust and disease. It is undoubtedly the **Finest Pure White Hardy Hybrid Rugosa Rose yet produced**, and is certain to be a standard variety for many years to come.

Price Good Mailing Plants 35 cts. each; Larger size, 50 cts. each, postpaid. Two-year bushes 75 cts. and \$1.00 each. Extra three-year bushes, \$1.50 and \$2.00 each by express.

EVER-BLOOMING ROSE

New Century

ROSE
NEW

CENTURY

ONE-HALF NATURAL SIZE

Introduced by The Conard & Jones Company

THIS magnificent Rose was introduced by ourselves and shown in a handsome colored plate on the front cover of our catalog for that year. It has proved so valuable that we have had a new illustration made and again ask special attention to it.

NEW CENTURY is a cross between the lovely **Clotilde Soupert** and **Rosa Rugosa-Alba**. It is perfectly hardy and blooms at short intervals all through the Summer and Fall. The flowers are 3 to 4 inches across, perfectly full and double, borne in splendid clusters, the color is flesh pink, with bright red centre, and having all the petals widely bordered with fine creamy white as shown in illustration. It is very sweet and has the delightful fragrance of the Wild Rose or Sweet Briar. It has been called the

New Iron-Clad Ever-Blooming Rose

which describes it exactly, for besides being entirely hardy it is not subject to the attacks of insects, rust or blight and is a real Iron-Clad Continuous-Blooming Rose, entirely different from the old ever-blooming varieties; should be planted in rich ground and kept well manured to induce vigorous growth and continuous bloom. Price strong 1-year plants, 20 cts. each; larger size, 25 cts., postpaid. Fine two-year bushes from pots or open ground, 35 cts. each. Extra size three and four-year bushes, cut back ready for planting, 50 cts., 75 cts. and \$1.00 each, by express.

C. & J. Quick-Blooming Roses

A SPECIAL GRADE, LARGER AND OLDER THAN OUR ORDINARY SIZE PLANTS

WE want all our friends to try our **Special Grade Quick-Blooming Roses**, as offered in the following list. They are especially selected early-flowering varieties, grown last season and kept dormant over Winter, and then repotted in larger size pots, which makes stout, stocky plants with an abundance of strong working roots, in best possible condition for vigorous growth and quick bloom. They should be planted as early as possible after the frost is out; rough weather will not hurt them and the earlier they are planted the quicker and better they will bloom. There are no roses equal to these for quick and satisfactory bloom.

They cost a little more than the ordinary size, but are worth twice the difference, and are sent postpaid by mail at the prices stated. They are so **hardy and vigorous** you cannot easily kill them or keep them from blooming.

Do not fail to give them a trial this season. Order to-day and we will send whenever desired.

GENERAL JACQUEMINOT

The Premier Hardy Crimson Rose

Famous the world over as one of the most magnificent Hardy Crimson Roses ever introduced. It is a strong vigorous grower, entirely hardy, an early and abundant bloomer, and both buds and flowers are considered models of perfection, and its brilliant shining crimson color is the standard of beauty by which other roses are judged. In fact, it is almost unequalled in beauty of form and brilliant intensity of color. It is not a new variety, but so valuable that it is frequently scarce and difficult to obtain, as almost everyone wants a "General Jack." This year, however, we have secured an unusually large stock offered below, and hope to have enough to supply all demands.

Their grand flowers are of all shades of red, crimson, scarlet, pink and white, but no yellows. Madame Plantier

SPECIALLY RECOMMENDED FOR CEMETERY PLANTING

AMONG all pure white Roses specially recommended for cemetery planting, there are few finer than **Madame Plantier**. It is one of the hardiest of all hardy roses, and does not winter kill even in the coldest and most exposed localities. It is a strong, vigorous grower, making handsome upright bushes, and an enormous bloomer, sure to be covered with lovely snow-white flowers every season, without attention; will last a lifetime and grow larger and finer every year. Does well everywhere and makes hardy, healthy, handsome bushes, that will take care of themselves and give lots of snow-white blossoms every season. We have a fine stock of this Grand Rose this year and hope to be able to supply all orders.

Price, fine one-year plants, 20 cts. each, 3 for 50 cts.; 6 for \$1.00. Larger size, 25 cts. each, 6 for \$1.25, postpaid. Two-year old plants, 35 cts. each, \$3.50 per doz. Extra size 3 to 4 year bushes for immediate effect, 50 cts., 60 cts. and 75 cts. each, according to size, by express.

WE RECOMMEND TWO-YEAR OLD ROSES

We have an unusually fine stock of Two-year old Roses this season (see prices above), fine large bushes, many of them grown in the nursery last Summer and now potted up in best condition for planting out, others have been in the pots from the first, all are grown on their own roots and are strong, thrifty plants, 12 to 15 inches high and ready for immediate bloom. They will give immense satisfaction to all who get them.

EXPRESS CHARGES HAVE BEEN REDUCED 20 PER CENT.

Two-year old Roses have to be sent by express, but express charges have been reduced 20 per cent. and are now quite reasonable, and besides this we pack as light as possible and always add a liberal number of Choice Extras, which in many cases will more than pay the charges, so no one need hesitate to order their Roses "sent by express." We can quote price prepaid through when requested. Two-year Roses weigh when packed about as follows: 12 plants, 20 pounds; 25 plants, 35 pounds; 50 plants, 50 pounds; 100 plants, 75 pounds. This includes the earth left on the roots, which is quite necessary to Roses of this size; if all the earth is shaken off, the plants may be hard to start and slow to bloom; and this is one of the reasons why Two-year Roses should always be sent by express when convenient. For further particulars about Express Charges, please read Information for Purchasers. (See Index.)

NOTICE

Our elegant Fall Catalogue of Imported Bulbs, Plants and Seeds for Fall planting and Winter bloom, will be ready about September 1st, and sent to all our patrons of this year without request; to others, free on application. If not received promptly, a postal card will bring it.

EXTRA COPIES of the GUIDE

We try not to send more than one guide to each person, unless asked for; but names are sometimes duplicated by mistake, and if you should accidentally get two copies, you will confer a favor by handing the extra one to some friend interested in flowers. It is sure to be an acceptable present.

New Passion Flower

Northern Cross

NEW PASSION FLOWER, NORTHERN CROSS (Two-thirds natural size)

This is a magnificent climbing vine, grows 8 to 10 feet the first season; begins to bloom at once, while quite small, and continues loaded with its splendid flowers the whole season, from June to November. Handsome glossy green foliage and enormous flowers, as beautiful as they are large, over five inches across, and showing a well-defined raised cross in the centre, surrounded by a wonderful halo of fine sky-blue rays, underlaid with beautiful rose-pink and white petals—altogether a rare and splendid flower, delightfully fragrant. Too much cannot be said in its praise. It is a fine hardy plant, easy to grow and sure to bloom. **The most splendid passion flower in existence**, and one it is no trouble to have in perfection. Do not fail to include it in your order this season; it will surprise and please everyone. **Price, strong plants, 15 cts. each; larger size, 20 cts. postpaid.**

THE SPLENDID EVER-BLOOMING *Tritoma Grandiflora* or New Flaming Torch Plant

It can be planted out early in the Spring, and will soon begin to bloom and continue to throw up its gorgeous spikes of splendid flowers the whole season, until the ground is hard frozen. It is quite hardy here, when given a light covering of leaves or garden litter, but further north the roots should be lifted and kept in the cellar over Winter, buried in sand. Early frosts do not hurt it, or keep it from blooming, and it continues as brilliant as ever long after other flowers are gone. It is unsurpassed for cutting, and its grand flame-colored pompons will keep for weeks in water. Can scarcely be recommended too highly for beds and borders. It is a grand plant in every way. Price, strong roots, 20c. each, 6 for \$1.00. postp'd.

C. & J. VELVET GREEN LAWN GRASS SEED

The best brand for seeding down new lawns and renovating old ones

OUR VELVET GREEN LAWN GRASS SEED is not excelled by any for producing a smooth, even, velvety-green sward that will withstand drought and hard usage, and always makes a handsome appearance. In seeding down a lawn or grass plot, three things are necessary to insure success: First, to prepare the ground so as to have a fine, smooth seedbed; second, to put on plenty of seed; never less, but rather more than the directions call for; third, to start the lawn-mower as soon as the weeds (which are always in the ground and sure to start first) are tall enough to catch, and keep them mowed off close till the grass has time to start and become well established. The seed should be lightly raked in and finished with a roller. Apply any good commercial fertilizer as a top-dressing when needed. One quart of seed is enough for three hundred square feet (fifteen by twenty feet), or at the rate of five bushels to the acre. Lawns should be kept neatly mowed, which induces a clean, even growth of fresh lively green.

Price by mail, postpaid 25 cts. per quart; two quarts for 45 cts.; in bulk, purchaser paying express charges \$1.25 per peck; \$4.00 per bushel of 20 lbs.

NEW SHASTA DAISY

The Canna "King of Bedders"

ARE YOU FAMILIAR WITH CANNA LILIES IN FULL BLOOM? (C. & J. Cannas we mean, not the old-fashioned kind.) For if not, you have no idea of how gorgeous and beautiful they really are. Words cannot describe them. They **must be seen** to be appreciated. For variety and brilliancy of colors they are unsurpassed, and when planted together in large beds or rows the effect is magnificent. They are easy to grow and from early Summer till late Fall are always a mass of bloom. They do well almost anywhere, but the richer the soil the finer they grow. When frosts come the roots may be dug and stored ready for planting out again in the Spring. No wonder Cannas are popular; they deserve to be.

"KEEPING EVERLASTINGLY AT IT BRINGS SUCCESS." Such in a nut shell is our Canna history. Several years ago the Vice-President of our Company and our veteran rose grower, Mr. Wintzer (see photo below), became convinced that by careful hybridizing the Canna could be vastly improved. Long years of patient persistent endeavor have had their reward. We regret that lack of space forbids details, for the process of originating a new flower is an interesting story in itself, but a glance through the Canna pages of this or any other up-to-date catalogue will show how much we have done in producing for America a **New Race of Cannas** superior in every way to the old. Our introductions include more than fifty excellent kinds in all colors. We grow the best, discard the rest. We are Canna Specialists. Indeed, so universally have C. & J. Cannas become known and so favorably known that

THE LEADING ORIGINATORS AND GROWERS OF HIGH-GRADE CANNAS**

⇒ **New White Canna MONT BLANC** ⇐

NEW WHITE CANNA, MONT BLANC—If ever a Canna jumped into immediate popularity **Mont Blanc** was that Canna. It was introduced by us in 1902, and has been in large demand ever since. It is by all odds the finest white Canna in commerce; in fact, there is no other variety that can compare with it. **Mont Blanc** has a vigorous constitution. It blooms early and continuously in the greatest profusion during the whole growing season. Its foliage is bright glossy green, very large and handsome, and so thick and leathery it is not often injured by rain or wind. It is a strong-growing, vigorous variety, and will produce from **fifteen to twenty flower stalks in a season**. Its great masses of snowy-white blossoms contrast finely with the splendid crimson and pink varieties, making the most gorgeous and showy flower beds for the lawn or garden it is possible to have. **Strong plants, 50 cts. each; \$2.50 for 6, delivered.**

1904) TWO FINE NEW ONES (1904

NEW CANNA, "CLOTH OF GOLD"—A golden yellow Canna on a dwarf plant with dark foliage is certainly an acquisition. When seen from a distance the color appears to be of a beautiful pure orange; but come closer—you will notice that each petal is overspread with glistening gold and faint tints of coppery red. Down in the centre is bluish pink. Flowers are of good size and continue blooming all season. The plants are fine, too; they grow only 2 to 3 feet high, have dark green foliage, striped and edged with brownish bronze. A splendid kind for the border of beds or almost anywhere. **Price, for nicely started plants, 50 cts. each, postpaid.**

"BLACK WARRIOR," A Sensation—The flowers of this Canna are almost black. It is a good mate for **Mont Blanc**. The color is an indescribable deep, rich shade of dark velvety maroon, with a centre shaded black. The flowers are about the average size with broad, well-formed petals of unusually good substance. It makes a healthy growth with luxuriant foliage, slightly crimped and narrowly edged with purple. **Black Warrior** is also a prodigious bloomer. We watched one plant in good soil on our ground last season and estimated that it produced over one thousand blossoms. Height, 3 to 3½ feet. **Strong plants, 50 cts. each, postpaid.**

12 CHOICE American Cannas

ALL ORIGINATED BY THE CONARD & JONES CO.

CANNAS are like people—even the best seldom have all the good qualities. We can recommend every Canna offered in this book, but of course some are better than others. If you should leave selection entirely with us and order "15 Cannas including best kinds that grow," Mt. Blanc and the 12 in this list would be our first choice. They include large flowering kinds in the finest crimson, pink, yellow and variegated colors; some with green foliage and some bronze. They are recent introductions, and for all round good qualities are absolutely unsurpassed. If you wish your planting to represent up-to-date Canna perfection, order Mt. Blanc and this set of 12 Choice American Cannas.

FAIREST PINK CANNA, "BETSY ROSS"—(Named after the illustrious maker of the first American flag, our Mrs. S. Morris Jones being a direct descendant.) We think this is one of the loveliest, sweetest and most beautiful of all Pink Cannas yet introduced. A compact grower with solid well-filled trusses, flowers always bright and fresh; certainly a beauty. About 3 feet. (Green foliage.)

BLACK PRINCE—A magnificent variety, flowers frequently 5 to 6 inches across. Color, an intense dark velvety maroon, almost black. A strong erect grower, with fine dark red stems and deep green leaves edged with purple. About 5 feet.

DUKE OF YORK—Largest and most magnificent of the variegated Cannas. Bears great bunches of immense flowers. Color, a beautiful rich deep crimson, with a throat of curiously mottled creamy white, and each petal exquisitely edged with an irregular border of fine gold. Light green foliage, very tough; a strong grower. Height, 4 to 5 feet.

EVOLUTION—The flowers are rich golden yellow, shading through canary and sulphur to a centre of beautiful blush pink. Such exquisite, dainty color, mounted on the handsome dark-bronze foliage, produces one of the most rare and pleasing color contrasts of any Canna in existence. Exceedingly unique and sure to attract attention.

NEW STORM-PROOF CANNA, "GLADIATOR"—Visitors walking through our Canna fields stop short in front of "Gladiator" every time. The big, round flowers of bright yellow petals are thickly spotted with pure crimson, smaller centre petals are solid crimson, rich and glowing; blooms profusely. Heads are unusually large and borne on long strong stalks with tough deep-green foliage. "Gladiator" will stand the storms better than any other Canna there is unless it be "Buttercup." Height, 4 to 5 feet. (See cut.) Strong Dormant Roots, 25 cts. each; 12 for \$2.50, postpaid.

NEW BRONZE-LEAVED CANNA, "HIAWATHA"—Foliage is a beautiful bronze, bright, striped and variegated with rich green. Flowers are borne in big bunches on strong straight stalks. Individual flowers are large, have broad petals, gracefully rounded and slightly crimped. Color is a delicate tint of rosy pink daintily dappled with silver blush, and finished off with a border of clear cerise. A most charming combination. Height about 3 feet. Good sound roots 25 cts. each; 12 for \$2.50 postpaid.

NIAGARA, CRIMSON AND GOLD—We consider "Niagara" the best of the low-growing variegated Cannas. Great handsome trusses; broad, thick, durable petals; color, rich deep crimson with a wide irregular border of deep golden yellow. An excellent grower. Height, 3 feet. Green foliage.

QUEEN OF HOLLAND—This handsome Canna makes well-balanced plants, 2½ to 3 feet high. Foliage very dark green, heavily veined and edged with bronze. Bears immense branching trusses of perfectly beautiful flowers. Color, deep rich orange.

NEW CORAL-PINK CANNA "West Grove"—Flowers extra large. Color bright, rich coral-pink, delicately overlaid with glistening orange scarlet bloom; petals finely dotted and lined with deep crimson. Makes strong shapely plants 4 to 4½ feet high; a prodigious bloomer; stands rain and heat with impunity.

BRANDYWINE, The beautiful Bronze-leaved Canna—A healthy vigorous grower of 4 to 5 feet. Makes a luxurious growth of dark bronze foliage and a magnificent display of fine large flowers. Color is intense vinous red beautifully dappled with deep crimson; two or three petals are sometimes narrowly edged with bright gold.

BUTTERCUP—True bright buttercup yellow. Height 3 ft. (See full description and painting from nature on pages 135 and 136.)

CHEROKEE—Rich dark maroon. Height 3½ ft. (See full description and painting from nature on pages 135 and 136.)

NEW TUBEROUS ROOTED... Begonias

("BEGONIA SPLENDENS")

NEW TUBEROUS BEGONIA

Our new Tuberous Rooted Begonias are among the most beautiful of all Summer flowering bulbs. They grow 12 to 15 inches high, branching freely and blooming abundantly all Summer and Fall. The flowers are exceedingly rich and handsome; from four to six inches across; many brilliant colors, including red, pink, crimson, scarlet, salmon, yellow and pure white. **The Bulbs should be started early in the house,** and set out when ground is warm; they like rich, moist ground when convenient, but will do well in all usual places if mulched with old, well-rotted manure or some similar material to shade the ground and prevent it from getting too hot and dry. Keep roots in cellar over Winter and they will produce larger and finer flowers year after year. They are very **grand and beautiful and extensively used in the finest places.** Can be kept in pots or bedded out as preferred.

Notice

—Our elegant Fall Catalogue of Imported Bulbs, Plants and Seeds for Fall planting and Winter bloom will be ready about September 1st, and sent to all our patrons of this year without request; to others, FREE on application. If not received promptly, a postal card will bring it.

FREE BY MAIL Please notice that everything offered in this book, excepting large two-year old roses and other large size plants are sent free by mail on receipt of price. To Canada, we send pot-grown roses, also plants, bulbs and seeds by mail, postpaid; but large size and dormant field-grown roses, shrubs and trees are prohibited except from March 15th to May 15th, and from October 7th to December 7th. We also send to Mexico, Hawaii, Bermuda, Cuba, Porto Rico, in fact we ship all over the world.

ORDERS BY EXPRESS Two-year old roses, large size shrubbery, fruits, trees, etc., are too large to mail and must be sent by express. We recommend that customers instruct us to ship smaller sized plants also by express, when in our judgment it is best to do so. We can send larger plants this way and can leave most of the earth on roots, which is of course much better for our customers. Express Charges are paid by the purchaser, unless otherwise agreed. But we are careful to pack as light as safety of the plants will permit and add as many extras as we can afford to help cover charges, and since the expressage on plants, bulbs, etc., is now 20% less than regular merchandise rates, the cost of sending goods in this way, even to distant points, is much less than one would suppose.

WEIGHT WHEN PACKED—Two-year old roses with earth left on the roots when packed ready to ship by express weigh about as follows: 12 plants, about 15 pounds; 25 plants, 30 pounds; 125 plants, 100 pounds; one-year old plants, 20 to 30 pounds per 100 plants.

We ship to practically any express office in the world at lowest possible rates. Purchaser always pays the charges. 35 cents is the minimum express charge made by each company that handles an order. The following schedule may help you to estimate probable cost of express charges on your order.

We want your orders, and whether large or small they shall have our best attention.

Premiums on Flower Seeds in Packets. Our prices are very low, but persons sending 50 cts. or more for seeds in pkts. or ounces may select to the value of 10 cts. extra, dollar orders 20 cts. extra, but no premium can be allowed on seeds ordered by the $\frac{1}{4}$ pound or upwards, or on lawn grass, or any special collection of seeds, and these cannot be given as premiums.

Hints on Growing Flowers from Seeds. Always buy **C. & J. Surpassing Flower Seeds**: they are the best. A dollar's worth of **C. & J. Surpassing Flower Seeds** will produce many times as many flowers as the same amount expended in plants.

Any ordinary soil will grow beautiful flowers. Make it fine and mellow, plant at proper time, keep clear of weeds, and Nature "will do the rest."

Do not plant when ground is wet and soggy, or it may bake so hard as to prevent the little plants from coming through.

Transplanting. Nearly all flowers are improved by transplanting, except Sweet Peas, Poppies, Centaureas, etc., which are usually sown where they are to grow. By starting tender seeds in boxes, hot beds or cold frames and transplanting, you escape danger of frost and secure the earliest and finest flowers.

Do not cover too deeply; very fine seeds should be merely pressed in with the hand; see printed directions sent with every order.

Do not allow plants to stand too thickly; weed out or transplant if necessary; if crowded they cannot bloom satisfactorily. A home adorned with beautiful flowers is sure to be happy and prosperous.

THE WONDERFUL NEW LOGAN BERRY (BLACKBERRY RASPBERRY)

This grand new Berry originated in California but has been tested here for several years. It makes a strong vigorous bush, and is quite hardy unless in very exposed situations where slight protection may be advisable. It seems to be a true Hybrid between the Raspberry and Blackberry, partaking of the nature of both in quality and appearance but of finer and more delightful flavor. The Berries are the size of the largest BLACKBERRIES and of a rich dark purple red, entirely different and much larger than any other Blackberry. It bears abundantly, the fruit has very few seeds, ripens early before blackberries, and is of such superior quality for cooking and eating that it has brought four times the price of other berries in market. It is well worthy of careful trial by every one interested in New Fruits, as it is very handsome and entirely different from all other berry fruits. 15 cts. each, 2 for 25 cts.; \$1.00 per dozen, postpaid. \$6.00 per hundred, by express. Two-Year Plants, 20 cents each, \$1.50 per dozen, by express.

BEAUTIFY YOUR LAWN WITH A BED OF Gorgeous Cannas

THE Canna is the "KING OF BEDDERS," and is by far the best plant you can get for making a magnificent display of blossoms. Cannas are easy to grow, bloom freely and continue a mass of vivid colors from early Summer till Autumn frost. We offer more than forty distinct shades ranging in height from 2 to 6 feet, so that by planting different colors together one can make the most beautiful flower beds imaginable.

Beds all of one color, such as rich pink or solid red, are also very effective. The lower growing kinds make a fine display planted along walls, fences, porches, etc. In fact, wherever they are, our C. & J. EVER-BLOOMING CANNAS are sure to attract attention. The cost is small when you think how much they beautify your lawn.

TWO SPLENDID CANNAS FOR BEDDING ARE CHEROKEE AND BUTTERCUP.

CHEROKEE—This Canna is a royal beauty of pure dark maroon, a shade of coloring so intensely deep and rich that it beggars all description. Petals are two inches broad, soft and fine as velvet. Blossoms borne on big branching trusses. About three and a half feet high. Foliage light green and very good.

BUTTERCUP—True bright buttercup yellow; large beautifully-formed flowers in fine large handsome trusses; stands unfavorable weather better than most any other kind and always shows up bright and clear, and is undoubtedly the best and most beautiful pure, bright, deep-yellow Canna yet produced. Height, three feet.

The magnificent color display of these two CANNAS will surprise you. (See painting from Nature on back cover page)
